# Subwoofers

- WQ3010D**
- 12" Subwoofer
  - 500 Watts RMS/1500 Watts Max • Dual 4 ohm Voice Coil
  - Aluminized Coated Polypropylene Cone • Co-polymer Composite High Excursion Surround • Dual Strontium Ferrite Magnet Motor Assembly • Rear Vented Pole Piece
  - Precision Stamped Frame

- WQ2510D**
- 10" Subwoofer
  - 500 Watts RMS/1500 Watts Max • Dual 4 ohm Voice Coil
  - Aluminized Coated Polypropylene Cone • Co-polymer Composite High Excursion Surround • Dual Strontium Ferrite Magnet Motor Assembly • Rear Vented Pole Piece
  - Precision Stamped Frame

- WG3010**
- 12" Subwoofer
  - 300 Watts RMS/900 Watts Max • Single 4 ohm Voice Coil
  - Aluminized Polypropylene Cone • Precision Stamped Frame • Co-polymer Composite High Excursion Surround
  - Strontium Ferrite Magnet Motor Assembly • Rear Vented Pole Piece

- WG2510**
- 10" Subwoofer
  - 300 Watts RMS/900 Watts Max • Single 4 ohm Voice Coil
  - Aluminized Polypropylene Cone • Precision Stamped Frame • Co-polymer Composite High Excursion Surround
  - Strontium Ferrite Magnet Motor Assembly • Rear Vented Pole Piece

- WF2510**
- 10" Shallow Mount Subwoofer
  - 300 Watts RMS/900 Watts Max • Single 4 ohm Voice Coil
  - 3" Mounting Depth • Aluminized Polypropylene Cone
  - Co-polymer Composite High Excursion Surround • Rear Vented Pole Piece • Precision Stamped Frame • Strontium Ferrite Magnet Motor Assembly

- WF2510D**
- 10" Shallow Mount Subwoofer
  - 300 Watts RMS/900 Watts Max • Dual 4 ohm Voice Coil
  - 3" Mounting Depth • Aluminized Polypropylene Cone
  - Co-polymer Composite High Excursion Surround • Rear Vented Pole Piece • Precision Stamped Frame • Strontium Ferrite Magnet Motor Assembly

## Powered Subwoofer

- SRV314**
- Slim Design 6-3/4" Powered Subwoofer
  - Dual-Voice Coil • 120 Watt High Power Amp
  - Maxx Bass Circuit for Virtual Bass Enhancer
  - Air Compression Structure with Aluminum Die-Cast Enclosure • RCA Line Level Input/Speaker Level Input • Dual-neodymium Magnet • Wired Remote Control Included
