

Galaxy

- DX919**
- 40 Channels CB Radio • Large Meter for Monitoring Signal/Power Output/Modulation & SWR • Smaller Foot Print Design • Mic/RF Gain Control • Variable Talkback and Dimmer Control Circuit Hi/Low/Off • Standard 4 Pin Front Panel Mounted Microphone Jack • Switchable Noise Blanker and Automatic Noise Limiter • Antenna Warning System (SWR Alert) • PA System

- DX929**
- 40 Channel CB Radio • Large Lighted Meter for Monitoring Incoming Signal/Power Output/Modulation and SWR • Smaller in Design • BlueLite Background • Variable Dimmer and Talkback Circuitry • Variable Mic/RF Gain Control • Standard 4 Pin Front Panel Mounted Microphone Jack • Switchable Noise Blanker and Noise Limiter • Antenna Warning (SWR Alert) • PA System

- DX939**
- 40 Channel AM Mobile CB Radio • StarLite Faceplate (Glow-in-the-Dark Green and Blue Lettering) • 5 Digit Frequency Counter with On/Off Switch • Large, Easy-to-Read Meter with 4 Scales • Automatic SWR Circuit with Alert LED • Variable Power Output Control • Roger Beep with On/Off Switch • Talkback Control with On/Off Switch • Variable Dimmer Control

- DX949**
- 120 Ch CB Radio (40 ea. AM/LSB/USB) • AM, SSB and PA Modes • LED Channel Indicator • Large, EZ-to-Read Meter with 4 Scales • Power Scale Calibrated for AM & SSB & SWR Scale • Noise Blanker and Automatic Noise Limiter • "Talkback" Circuit with On/Off Switch & Volume Control • Variable Dimmer/Mic-Gain/RF-Gain Controls • Roger Beep with On/Off Switch • Galaxy Noise Filter

- DX959**
- 40 Channel AM SSB Mobile CB Radio • 120 Channels (40 ea. AM/LSB/USB) • AM, SSB and PA Modes • 5-Digit Frequency Display • Large, EZ-to-Read Meter with Four Scales: • Noise Blanker and Automatic Noise Limited • Automatic SWR Circuit • "Talkback" Circuit with On/Off Switch • Variable Dimmer/Mic-Gain/RF-Gain Controls • Roger Beep with On/Off switch & LED Indicator • Green/Red LED Indicator for RX/TX • Galaxy Noise Filter

- DX979**
- 40 Channel AM SSB Mobile CB Radio • 120 Channels (40 ea. AM/LSB/USB) • AM, SSB and PA Modes • New Smaller Chassis Design • Starlite Faceplate • Large Meter w/Scales for "S" Meter, Modulation Percentage Scale, Power Scale Calibrated for AM/SSB and SWR • Automatic SWR Circuit • "Talk-back Circuit with On/Off Switch and Vol Control • LED Ch Indicator • Mic Gain Control • Dimmer Control • Galaxy Noise Filter

- DX2547**
- New Style Midsize Deluxe 40 Channel CB Base Radio
  - 6 Digit Frequency Counter • Large, EZ-to-Read Meter with 4 Scales • Power Scale Calibrated for AM and SSB • SWR Scale • Talkback Circuit with On/Off Switch and Volume Control • Variable Power Output Control • Roger Beep with On/Off Switch & LED Indicator • Galaxy Noise Filter • High SWR Alert LED Indicator • Instant Access to Channel 9 or 19
  - Receive Clarifier with On/Off Switch • Flip-Down Front Feet
  - Powered Pin on Mic Jack • Operates on both AC & DC
