

- TR2000 – Remote Watt Meter**
- May Be Left in Antenna line Continuously
 - Dosy Professional Architecture • Large 4.5" Back-Lit Meter • 3-Watt Ranges: 0 - 20, 0 - 200 and 0 - 2000 • Mobile Mounting Bracket • SWR Bridge & Modulation Meter

- TC4001 – In-line Watt Meter**
- Reads RMS and Peak Power • Large 4-1/2" Meter • Measures Antenna SWR, SSB Modulation, & Modulation Percentage
 - 4-Watt Ranges: 0-20/0-200/0-2000/0-4000
- TC4001P**
- Lighted Meter and Headphone Inculded

- PM1000 – In-line Watt Meter**
- Measures Antenna SWR • AM Modulation Check • Reads Peak Watts • Large 4-1/2" Meter • Dosy Professional Architecture
 - 3-Watt Ranges: 0 - 30, 0 - 300 & 0 - 1000

- TC4002PSW – In-line Watt Meter**
- Reads RMS and Peak Power • Measures Modulation Percentage/Antenna SWR/SSB Modulation • Built-in Phone Jack for Signal Monitoring • Headphones • AC/DC Power Supply • Dosy Professional Architecture
 - Large 4-1/2" Back-Lit Meter • 4-Position Antenna Selector Switch • 4-Watt Ranges: 0 - 20/0 - 200/0 - 2000/0 - 4000
