

## Full Throttle Series High-Performance AGM Batteries

In a high impact environment, you need a battery that is as tough as the rest of your vehicle. Full Throttle batteries feature our TPPL Technology, extra thick connections, pure lead and brass terminals to ensure that the power in your battery gets to your accessories efficiently.

Introducing Full Throttle Series batteries! Built to the highest standards on the market, Full Throttle batteries are made to be put through the toughest tests. Tackling high speeds, off-road abuse, on-board accessories, bouncing hydraulics, and earth shattering sound systems is a snap.
