POWER RAIL

12-VOLT ACCESSORY BAR from SAS

POWER RAIL

12-VOLT ACCESSORY BAR from SAS

DO WITH IT.

LIGHT IT UP

CRANK IT UP

GET THE LED OUT

LET IT WHIP

GET IT DIRTY

SPRAY IT ANYWHERE

LOAD IT DOWN

Now you can juice up your rides to the max, with the new 12-Volt Accessory Bar from SAS!

Our multi-purpose 12 volt accessory bar telescopes from 32" to 56" and easily mounts to both front or back tube racks or basket racks on all ATVs and UTVs. Just mount it, push-lock your accessory in and you're ready to roll!

Have some LED light bars you've been wanting to put on your bike? Speakers to add some rock to your roll? Add anything that juices up your ride—Bazoooka bluetooth speakers with LED lights, LED spotlights, agricultural sprayers - whatever you need to power up!

MT6100BTAL

The Power Rail uses standard SAE quick-disconnect type connectors, making it easy to add accessories and even easier to hardwire the Power Rail to your bike. There's also a master power switch to ensure the Power Rail is completely turned off when you store your ride.
