

## SHOCKER XL TRAIN HORN

### AH-S4

- Lightweight and Extremely Loud • Durable Fiberglass Reinforced ABS Plastic Body • Stainless Steel Diaphragm • All-inclusive Brass Fitting Kit • Standard Mounting Hardware
- Made In The U.S.A. • Can Be Heard From 2 Miles Away!
- Compressor and Tank Required

## CONDUCTOR'S SPECIAL 232 SPARE TIRE DELETE KIT

### HK-S4-232

- Lightweight and Extremely Loud • Durable Fiberglass Reinforced ABS Plastic Body • Stainless Steel Diaphragm • All-inclusive Brass Fitting Kit • Standard Mounting Hardware
- Made In The U.S.A. • Can Be Heard From 2 Miles Away!
- Compressor and Tank Required

## VIAIR DUAL 480C AIR COMPRESSOR KIT

### DC-480

- Double the Power: Two mighty Viair 480C compressors, ready to deliver up to 200 PSI effortlessly into tanks as big as 10 gallons. Whether it's air suspension, rapid tire inflation, powering air tools, or letting loose the thunderous roars of HornBlasters Train Horns, this kit has got you covered.
- Continuous Performance: While others need intervals, the Viair 480C Dual Pack runs non-stop at 100 PSI, ensuring you're always equipped and never left deflated.
- Lightning Speed: With the ability to charge a 2-gallon tank from 165-200 PSI in a mere 30 seconds and a 5-gallon tank in under two minutes, waiting is a thing of the past.
- Advanced Installation Gear: Included in this dual pack is a remote mountable intake filter assembly for optimal positioning away from contaminants, a stainless steel braided leader hose, and all necessary electrical components for a seamless installation.
- Built for the Long Run: From the moisture and dirt-resistant build, permanent magnetic motor, to the automatic reset thermal overload protector, each feature ensures longevity and peak performance.

## OUTLAW 3-CHIME BLACK TRAIN HORN KIT

### AH-C3B

- Tri-Tone Train Horn • Heavy Duty Steel Body • Longer Bells that Measure up to 8-1/2" Long and Wider Flares • Authentic Train Horn Sound • Horns are Same Size as the Ones used on Locomotives today • Rated at 142db • 12 Volt Electric Valve • 6 Feet of 1/2" Air Line • Mounting Hardware and Installation Diagram Included
- Compressor Required

## 145 PSI 2 GALLON AIR SOURCE KIT

### MC-228H

- 2 Gallon Viair Air Tank • HornBlasters 280c Air Compressor
- Pressure Switch (110 PSI on, 145 PSI off) • 1/4" NPT 175 PSI Safety Blow Off • 1/4" Drain Cock • 1/2" NPT Compression Fitting
- Insulated Wiring with Connectors • Installation Instructions

## TIRE INFLATION KIT

### AA-TIK-H

- Universal Compatibility & Relocation Ease: Easily attaches to any 1/4" port and offers the flexibility to position the access port anywhere on your vehicle for personalized convenience.
- Multipurpose Utility: Beyond tire inflation, this kit serves as your go-to for inflating toys, sports equipment, and connecting to light-duty air tools. Your one-stop solution for all inflation needs.
- Precision and Durability: The built-in air gauge guarantees accurate inflation, while the stainless steel gun body promises durability and longevity.
- Extended Reach: With an impressive 30 ft of reach, access all areas of your vehicle effortlessly and more.

## CONDUCTOR'S SPECIAL 244K SPARE TIRE DUAL TANK DELETE KIT

### HK-S4-244K-STDDK

- **Extended Honk Duration:** Dual 2-gallon tanks provide a 6-10 second honk time, ensuring your presence is felt from miles away.
- **Authentic Sound Experience:** Shocker XL Train Horns are hand-tuned to deliver a genuine train horn experience without the hefty price tag.
- **Durable Horn Construction:** Horns are made from fiberglass-reinforced ABS composite, ensuring they withstand the test of time and elements.
- **Streamlined Installation:** The Dual Tank Spare Tire Delete bracket, crafted from 14-gauge steel with a sleek two-stage black powder coat finish, simplifies component placement and cuts installation time in half.
- **Rapid Recharge System:** The 1NM Stealth Black Air Compressor ensures the tanks are back to full capacity in approximately a minute.
- **Versatility at its Best:** The onboard air system is not just for honking; it's compatible with air tools and can assist with tire inflation.
- **All-In-One Solution:** This kit provides everything you need for the ultimate train air horn experience, from sound to functionality.

## CONDUCTOR'S SPECIAL 544 NIGHTMARE EDITION TRAIN HORN KIT

### HK-S4-544K

- **Distinctive Acoustics:** The Shocker XL train horns, celebrated for their immense volume, are hand-tuned precisely to the US Train Horn Chord, guaranteeing an authentic train horn sound experience.
- **Robust Build:** With a design rooted in fiberglass-reinforced ABS composite and bolstered by stainless steel internals, these horns promise an enduring lifespan.
- **Swift Air Recovery:** The combination of a 5-gallon, 8-port air tank, and the HornBlasters HB-1NM compressor ensures a rapid 2-minute recovery from 110 to 150 PSI.
- **Complete Setup Solution:** Offering everything from A to Z, this kit ensures a hassle-free installation, enabling you to get up and honking in no time.
- **Adaptable Performance:** Apart from a substantial 10-second honk time, the system adeptly manages additional tasks, from inflating tires to operating air tools.

## PA SYSTEM WITH SIREN

### PA-100H

- 100 Watts of Powerful Performance • Weather Resistant Speaker • Plays Wail, Yelp, and Hi-Lo Sirens • Includes Mic, Control, Speaker, and Two Auxillary Switches

## STEALTH SPARE TIRE DELETE KIT

### HK-STEALTH

- **Multidirectional horn mounting pattern;** sound projecting from both sides creates a 360-degree wall of sound.
- **Fits more vehicles than before.** New design allows for multiple mounting configurations.
- **New component layout gives 5" of extra ground clearance** compared to the previous Spare Tire Delete kit by moving the bells up into the spare tire well.

## 1.5 GALLON AIR TANK COMPRESSOR

### MC-127H

- 1.5 Gallon Air Tank • 90/120 psi Pressure Switch • 1/4" NPT 175 psi Safety Valve • 1/4" Drain Cock • 1/2" NPT Compression Fitting • Insulated Wiring with Connectors • Mounting Hardware • Installation Instructions

## SPARE TIRE DELETE BRACKET

### HB-STDK

- **Rapid Installation:** No more endless hours of tinkering. Slash your installation time from a lengthy 6-8 hours to a swift 3-4 hours. Simply bolt everything to the bracket, plumb the air line, and finish the electrical connections.
- **Stealthy Aesthetics:** Constructed from robust 14-gauge steel and adorned with a stealthy black powder finish, this bracket is designed to seamlessly blend with your vehicle's undercarriage.
- **Durability Redefined:** With a two-stage powder coat finish, expect resilience against the harshest of elements. A piece engineered to last.
