- HEIGH10® 10" Multimedia Radio Replacement Display
- All-In-One Radio Replacement Interface
- Factory-Matched Radio Dash Kit for HEIGH10®
- PAC-LINK Communication Module
- Complete Plug-n-Play Installation Harnesses
- USB/HDMI Hub
- Antenna Adapters for Satellite & AM/FM Radio

CHOOSE THE RIGHT RADIO REPLACEMENT SOLUTION FOR YOUR INSTALL

RadioPRO ADVANCED Stinger® HEIGH10® Install Kits

Complete Stinger HEIGH10 Ready to install Installation Kits.

Factory-contoured plastics that perfectly and professionally mount the Stinger HEIGH10 multimedia infotainment system into specific vehicles, while retaining vehicle-specific OE features, like HD reverse camera, performance gauges, and more.

RadioPRO Integrated Kits

Everything you need to install a new aftermarket radio in one box. Factory-matching aesthetics, reliable feature retention (RadioPRO) module, and time-saving plug-and-play harnesses will ensure a quality and professional installation.

Radio Replacement Interfaces

RadioPRO ADVANCED: Representing PAC's latest integration technologies, RadioPRO ADVANCED offers greater features and performance in a smaller package! PAC-LINK expansion capabilities enable seamless connectivity with Stinger radios and many other future accessories.

RadioPRO: The RadioPRO line is your all-in-one installation tool, giving you the optimized installation of an aftermarket radio while enabling you to retain the car's important factory features.

Basic Digital Interfaces

C2R & OS – PAC's legendary line of C2R and OS radio replacement interfaces allows you to effectively replace your factory radio without losing the factory features (requires SWI module to retain steering wheel controls). OS modules are developed to retain OnStar.

Radio Replacement Accessories: With vehicle-specific USB port retention cables, add-on chime output modules, video output retention cables, and more, PAC rounds out its radio replacement offerings with feature and vehicle-specific solutions for installations where simplified products get the job done.

Basic Analog Interfaces

ROEM – These radio replacement interfaces are designed for older, analog factory radio replacement.

Steering Wheel Control Interfaces

ControlPRO (SWI): Advanced steering wheel control interfaces with versatile configuration options. ControlPRO products can be configured from your smartphone or computer.

TAKE YOUR IN-VEHICLE INFOTAINMENT TO NEW HEIGHTS

HEIGHT[®]

UN1810 (UNIVERSAL)

10-INCH FLOATING MULTIMEDIA INFOTAINMENT DISPLAY SYSTEM

Featuring a high-resolution, 10-inch capacitive touchscreen with 16.7 million colors for a full visual experience, HEIGHT is designed to enhance screen size and infotainment features for drivers of any vehicle. The display and main tuner box assemble into a standard Double-DIN chassis, so HEIGHT fits most vehicle dash kits. While the modular design bolsters installation flexibility in space-limited applications--and, in some cases, even where no installation dash kit is available. HEIGHT features anti-glare and anti-reflection technology for best outdoor visibility. Personalize your display with customizable RGB illumination to match factory illumination or create your own.

FEATURES

- Standard Double-DIN chassis for universal mounting applications
- Modular design and accessories for custom installation applications
- 10-inch, anti-glare 1024 x 600 HD digital capacitive touchscreen featuring 16.7 million colors
- Apple CarPlay[®]
- Google Android Auto[™]
- SiriusXM-Ready[™] with Replay (SiriusXM Connect vehicle tuner and subscription required)
- AM/FM radio - PTY/RT information
- High power built-in amplifier
- 4V 6-ch RCA audio outputs with subwoofer control
- Toslink (Optical) variable audio output
- 15-band adjustable EQ with 3 user presets for each audio source
- 1 HDMI rear input
- 2 USB rear inputs 1.5A output
- Handsfree Bluetooth[®] 4.2 A2DP with aptX[™]
- Built-in microSD card slot for optional iGO navigation
- 4-camera video inputs with wired triggers (PAC RadioPRO compatible)
- Mic audio input from rear camera
- Hardwired remote control ready (steering wheel controls)
- Customizable illumination colors and display backgrounds
- Shallow 1-DIN chassis mounting design
- Modular multimedia infotainment display system
- Anti-glare and anti-reflection technology for best outdoor visibility
- Customizable RGB illumination to match factory illumination or create your own
- Shallow 1-DIN chassis design for installation flexibility
