REMOTE START PERFECTED

AL-XX70-B

RS-X70
1 BACKUP BATTERY PORT
Featuring our exclusive Power Maze technology, battery power only supports mission-critical security functions. You won't waste the battery on power-hogging features like remote start. Believe it or not, with Power Maze, a simple 9V battery is all you need to combat any security threat.

2 BACKUP BATTERY BRACKET
AL-XX70-B has this nifty slide on bracket for the backup battery. The slide on battery housing and harness are included with every security model powered by the AL-XX70-B.

3 DOOR LOCK/UNLOCK PORT
Analog outputs for door lock, driver unlock, & all door unlock. Has a +12v pin for driving relays or other analog adapters like the DLR-U

4 REMOTE START SATELLITE PORT(S)
4 analog outputs for several options to add extra or custom functions. AL-XX70-B has 3 programmable outputs The RS-X70 has 2 programmable outputs. All have a +12v pin for driving relays or bypass modules.

5 WHITE 4-PIN AUX PORT
This port provides OEM alarm arm/disarm control along with remote start activation input and 3RD channel out. These functions are separated from the main harness since they are supported over data in most vehicles. Yep, cleaner install.

6 DUAL DATA PORTS
Both ports are physically matched to legacy (DBI) and modern (iDatalink) connectors. However, both support DBI or iDatalink protocols. Protocols are auto-detected during *Vehicle Learn* process or manually selectable.

7 BLADE HARNESS PORT
This is where you connect the harness included with any OmegaLink BLADE cartridge. It's also compatible with our line of T-harnessess.

8 70 SERIES ANTENNA/STATUS LIGHT PORT
This port supports any 70 series antenna module. Select any combination of 1-way/2-way and range you'd like. It also supports our push-button LED (included with the RS-170-B)

9 BLADE CARTRIDGE PORT
This is where the OL-BLADE-AL64 or OL-BLADE-TB is inserted to the AL-XX70-B. PCB shielding and precision locking guides makes it simple and secure.

10 DUAL ANALOG SENSOR PORTS
You can stack any 2 security sensors you'd like onto the AL-XX70-B.

11 SECONDARY HARNESS PORT
Our secondary harnesses feature 100% copper wire for maximum current capacity, increased flexibility, and longest possible performance life.

12 PRIMARY POWER HARNESS
Our primary harness supports four 20/30A vacuum sealed relays with 100% copper wire for the best possible performance in the industry. An optional low-current harness (P/N: H-RS6BLC) is also available (ask about our High Current > Low Current harness exchange program).

13 ONBOARD TEMPERATURE SENSOR
First introduced to the industry in our award winning 30 series remote start models. It provides low and high temp auto-start with selectable thresholds, temp readout on 2-way controllers, and auto-crank adjust for cold weather.

Standard Features:
- Includes the OL-BLADE-AL-64 for all-in-one installer paradise!
- Dual data ports
- Vehicle learn mode
- Self-diagnoses
- Full security suite
- Random Horn Honk
- XL Pitstop

OmegaLink — REMOTE START DATA MODULES WITH CUSTOM T-HARNESS

The OmegaLink Data Start Modules/ Custom T-Harness kits will allow you to remote start vehicles from the OEM keyless entry transmitter to create an affordable "factory like" remote start system, eliminating the need for a traditional remote start system. Please note that some systems require an optional RF kit to control remote start functions. Optional RF kits and Linkr Telematics units can be added for increased operating range.

DATA START SYSTEMS

- Enables remote start from factory key fob (3XLOCK) on most models
- Advanced, fully integrated remote start technology
- No need to relinquish or purchase a costly key
- 'Plug and Play' wiring harness for non-invasive installation
- Compatible with long range remote controls and smart phone solutions sold separately

CHROME PLATED BRASS!

AH-300

The AH-300 is our original 3 tone train horn assembly. It has 10.5", 14.5", and 15" trumpets that features chrome plated brass construction. It is fitted with a 12 VDC switching solenoid 1/2" valve. Air line capable of handling up to 150 PSI is also included with all necessary mounting hardware. The AH-300BLK is the same design but constructed out of steel with a corrosion resistant black coating.

CHROME PLATED BRASS!

AH-D300+

The AH-D300+ is the same as the AH-300 but has a detachable style construction. With the addition of our braided air lines, you can disassemble each trumpet and mount them remotely from the manifold. This allows for installation in the most challenging of vehicles. Also equipped with a 1/2" valve

CHROME PLATED BRASS!

AH-250
